## 1. What is a Target Market Determination?

A Target Market Determination (TMD) is a determination that Vero has made to:

- describe the class of Customers this product has been designed for;
- specify product distribution conditions;
- specify TMD review periods and triggers; and
- set out reporting requirements.

This TMD assists Vero staff, our Distributors and Customers in understanding the target market for this product.

In this TMD, distribution includes the following conduct in relation to Customers:

- dealing in the product (e.g. issuing or arranging for the product to be issued to a Customer);
- giving a PDS or other regulated disclosure document; and
- providing general financial product advice in relation to the product.

## 2. What is the target market for this product?

The target market for this product is those Customers it is likely to be suitable for taking into account:

- the key attributes;
- the likely objectives, needs and financial situation of Customers who will acquire the policy; and
- key eligibility and suitability criteria.

### 2.1. What are the key attributes of this product?

The Vero Motor Fleet Product Disclosure Statement offers cover for individuals and/or businesses that require motor vehicle cover, who have coverage under both Part 1 and Part 2 of the policy. A Customer can select policy sections to tailor cover under their policy to meet their own objectives, needs and financial situation. Each policy section is underwritten and quoted on an offer and acceptance basis in accordance with Vero’s underwriting rules.

The choices the Customer can make will impact the kind and scope of cover, policy limits, excess amount, policy premium amount and structure.

The below table describes the key attributes for each of those policy sections.
